I need you to help me improve my personal brand. Based on my profile on the platform and some information I will share with you, I need you to give me advice, help me find a name, which content to create, make a plan and create objective in orden to grow my presence online and get a new job and new sources of income (this two are the final goal for all this, obviously)

Keyword: AI, Design, Artist, Decentralized, Creative, 3D, Blender MCP, Workflow, Automation, NFTs, Cryptocurrencies.
Possible names: Personal name: Matias Mirassou, Mati Mira? or fantasy name: DEAlrtist, AI Designer, Decentral Artist... or something similar.

I'm a AI content creator, and I need to generate content based on the newest trends on AI. Today's trend are the new effect of Higfield ai (Thunder god, desintegrate, set on fire, turning metal, soul jump) and HeyGen Avatar IV, Hey gen new model. Could you give me ideas to generate content with this tools to share on my social media?

I have a question regarding the name. Because Mat Airt is exactly my name qith ia in it, that is inteligencia artificial in spanish, and Mat Airt has AI in english but is not exactly my name... how much does it affect considering seo and social media position ?!

Create a good ui for my personal website, where i can show all my work of AI art, workflow and other uses of AI, based on the color you suggest for my brand. Palette: charcoal #222, electric-teal #00FFD2, warm-sand #F6F3EE (echoes NFTs/Blender UI).

Based on our current brand growth plan, can you give me some Seo recomendations? And can you create a good title and introduction to my brand to use as H1 and H2 on the hero of my website?
